25X1 Dear []

25X1 This confirms our conversation of yesterday. As the Community
proceeds from the reanalysis of the Korean [] Scenario Study
25X1 [] and ultimately to an NIE on
Warning in Korea based on the first two efforts, I assume DIA will
expand the existing steering group to include other agencies. While
NFAC has very limited assets, we are most anxious that they participate
in this extremely important project. Arrangements have been made for
25X1 [] of OSR to serve as a member of the steering group when he
returns from travel. In the interim, [] can fill in anytime
25X1 after about mid-November. [] will continue to par-
ticipate in the non-military portion, of course.

[]
Assistant
National Intelligence Officer
for Warning
